

Part Number Legend

<u>Prefix Number</u>	<u>Description</u>
12-	Selected Standard Cover Assembly
20-	Selected Standard Drive Plate
30-	Clutch Kits - Uprated Organic Faced Drive Plates
35-	Clutch Kits - Uprated Organic Faced Drive Plate & Steel Flywheel
40-	Release Bearing
41-	Concentric Slave Cylinder/Release Bearing
60-	Uprated Group 'N' Cover Assembly
70-	Uprated Organic Faced Drive Plate (Sprung Hub)
71-	Uprated Organic Faced Drive Plate (Rigid Hub)
76-	Cerametallic Paddle Drive Plate (Sprung Hub)
77-	Special Cerametallic Paddle Drive Plate (Sprung Hub)
78-	Cerametallic Paddle Drive Plate (Rigid Hub)
90-	Sporting Clutch Kit - Cerametallic Paddle Drive Plate (Sprung Hub)
91-	Sporting Clutch Kit - Cerametallic Paddle Drive Plate 9 (Rigid Hub)
95-	Sporting Clutch Kit - Uprated Cerametallic Paddle Drive Plate & Steel Flywheel

HEAVY DUTY COVER ASSEMBLY Series Part No 60-0000

The Helix clutch is intended for applications where the engine / vehicle performance has been increased above standard. All Helix clutches are manufactured from new components to the highest standards using the best materials available; they are designed to give a higher clamp load to cope with higher torque capacity together with an increase engine rpm. The units can be fitted as a direct replacement for the standard unit without modification to the flywheel and retaining the standard clutch release mechanism. There are a few exceptions and these are identified in the catalogue.

Helix also produce a range of aluminium billet covers that are made from high grade aluminium. These covers are even stronger, more durable, increase the performance and reduce the weight.

DRIVE PLATE ORGANIC SPRUNG CENTRE Series Part No 70-0000

This type of drive plate is suitable for road use and light competition work. The design features damper springs arranged radially around the hub centre which together with facing segments provides progressive engagement and greater degree of clutch control. The organic facing material used is the best high performance material available with facings over 200mm diameter being metal backed to give much higher burst strength.

DRIVE PLATE ORGANIC RIGID CENTRE Series Part No 71-0000

The rigid type of drive plate is not fitted with any form of damper cushioning and is specifically designed for more arduous conditions where the degree of comfort / refinement is second to durability and strength. Again only the best high performance organic friction facing material is used.

DRIVE PLATE CERAMETALLIC SPRUNG CENTRE Series Part No 76-0000

This type of drive plate is more suitable for high energy competition applications like rallying although it can be used for road use where the organic drive plate cannot withstand the higher operating temperatures. The design incorporates a sprung centre to provide some protection against drive line shock. Manufactured with a rigid adaptor plate (instead of cushion segments) incorporating cerametallic pads as shown. This cerametallic material keeps its friction properties to a much

DRIVE PLATE CERAMETALLIC RIGID CENTRE Series Part No 78-0000

The rigid cerametallic drive plate has no form of damper or segment cushioning and is designed primarily for the most arduous of working conditions where strength and durability are paramount with the heat resistant properties of the cerametallic friction pads.

SPRUNG ORGANIC THREE PIECE CLUTCH KITS Series Part No 30-0000

These kits include a cover, a sprung organic faced drive plate and a release bearing.

SPRUNG ORGANIC FOUR PIECE CLUTCH KIT Series Part No 35-0000

These kits include a cover, a sprung organic faced drive plate, a release bearing and a steel flywheel.

SPRUNG CERAMETALLIC THREE PIECE CLUTCH KIT Series Part No 90-0000

These kits include a cover, a cerametallic faced paddle drive plate and release bearing.

RIGID CERAMETALLIC THREE PIECE CLUTCH KIT Series Part No 91-0000

These kits include a cover, a rigid organic faced drive plate and a release bearing.

SPRUNG CERAMETALLIC FOUR PIECE CLUTCH KIT Series Part No 95-0000

These kits include a cover, a sprung cerametallic paddle drive plate, a release bearing and a steel flywheel.
