

STEEL BILLET PERFORMANCE FLYWHEELS

- ✓ Manufactured from Chromium Molybdenum steel.
- ✓ CNC Machined to exacting tolerances.
- ✓ Crankshaft flange to flywheel friction face parallel tolerance $\pm 0.005\text{mm}$.
- ✓ O.E specification Integral Ring Gear.
- ✓ Flywheel mounting holes are precision machined to match the crank flange.
- ✓ Fully balanced.
- ✓ The race flywheels have optimal weight concentration at centre mass to retain inertial energy.
- ✓ Improved throttle response due to reduced mass outside centre hub.
